LATEST PROJECT

RaiBack – Customer Satisfaction & Analytics System
- Worked on RaiBack: a customer-feedback analytics system used by major Saudi organizations such as Al-Haramain Authority and Ministry of Mining.
- Developed survey modules, real-time feedback processing, dashboards, KPIs, and reporting systems.
- Built scalable APIs, optimized database structures, and implemented advanced sentiment-analysis workflows.
- Contributed to improving data visualization and operational insights across multiple enterprise clients.

Full E-Commerce Store (In Progress – Testing Stage)

Store Link: http://store.hulul.tech/

- Developed a custom Laravel store with full checkout flow, product management, multi-variant support (colors/sizes), and inventory control.
- Integrated Paymob online payments, SMS login, and shipping partners (Tryoto).
- Implemented Livewire And Service-Repository Pattern.
- Store currently under final QA/testing before public launch.

Dalala – Car Dealership RESTful API (Mobile App)

- Built a complete RESTful API for car listings and advertisements.
- Features include advanced filtering (brand/model/year), user authentication, roles, and admin approvals.
- Supports secure image upload for car ads and optimized performance for large datasets.

Corporate / Informational Websites

Three major corporate websites built with dashboards and custom CMS:

- Imdad Energy – Oil & Gas Company (Dammam)
- Dynamic company website with interactive admin panel.
- Link: https://imdadenergy.net
- S. Al-Qhtani Law Firm
- Professional law firm website with multilingual CMS and SEO-optimized structure.
- Link: https://s-alqhtani.com/
- KCI – Oil & Gas Company (America)
- Corporate site with service showcase and custom CMS.
- Link: https://kcico.net/
